

Route 49 pavement improvements in Pennsville Township Traffic Impacts/Detours

This project will improve deteriorated pavement along Route 49 between the I-295/Route 40 interchange (at milepost 0.1) and the vicinity of S. Hook Road (milepost 5.7) in Pennsville.

The construction will be accomplished during overnight hours through four construction stages. Westbound traffic being maintained at all times with eastbound traffic being detoured at various intervals, utilizing traffic shifts.

Stages 1 construction will address Route 49 in both directions between Chestnut Road and Mahoney Road.

- **Eastbound traffic will use Pittsfield Street to Hook Road to Mahoney Road back to Route 49.**

Stage 2 construction will address Route 49 in both directions between Mahoney Road and S. Hook Road.

- **Eastbound traffic will use Mahoney Road to Hook Road to Route 49.**

Stage 3 construction will address Route 49 in both directions between I-295 and Churchtown Road.

- **Eastbound traffic will use Old Pennsville Auburn Road to Hook Road to Churchtown Road to Route 49.**

Stage 4 construction will address Route 49 in both directions between Churchtown Road and Pittsville Street.

- **Eastbound traffic will use Churchtown Road to Hook Road to Pittsville Street to Route 49.**
