

Murphy Construction Consulting, LLC.

With over 43 years of construction experience, hard work has typified Jack Murphy's business ethic. As Chief Operating Officer of Federal Services for The Conti Group, Mr. Murphy was responsible for the management of all field operations including scheduling, personnel, labor relations, and technical construction oversight. He is also the company's representative for collective bargaining agreements with various local unions. Working with Superintendents and Project Managers, he reviews the project schedules, manpower loading requirements, material requisitions, and safety policies and procedures assuring the customers' expectations.

After a tour in Vietnam with an engineering unit, Mr. Murphy began his construction career as a General Laborer in 1969. He quickly rose through the ranks to become a Foreman, Superintendent, General Superintendent, VP of Construction, Executive VP and Chief Operating Officer. As a project superintendent, he built numerous large multi-trade projects, all while attending college part-time.

Mr. Murphy's has extensive experience in heavy & highway projects, environmental remediation, facilities hardening and buildings. He has managed projects for public and private clients to include the US Army Corp Of Engineers and other Federal Agencies.

Mr. Murphy has served on the boards of many professional organization. He has been an adjunct professor at Rutgers University and Middlesex County College, and taught certification course for the New Jersey Society of Asphalt Technologists. In addition, he has served as President of the Utility and Transportation Contractors Association, and as Chairman of the Construction Industry Advancement Program of New Jersey.

He graduated from the New Jersey Institute of Technology in 1988 with a BS in Civil Engineering Technology, as well as from the Harvard Business School in 2002 with a degree in its Key Executive Program.

In 2012' Jack retired from the Conti Group and created an LLC consulting company, focusing on Leadership, Management, and project problem solving.
