

New Jersey Department of Transportation
CONSTRUCTION ADVISORY

NUMBER: 16	Materials Payments and Storage (Stockpiled Materials)	03/14/2014
CATEGORY: Payment		

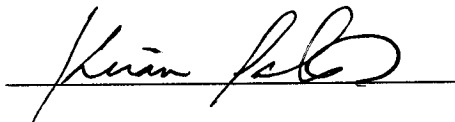

Section 109.06 of the Specifications allow for the payment of materials paid for, stored but not incorporated into the work to the Contractor. All the requirements of 109.06 must be met prior to payment of these materials to the Contractor.

The AASHTOWare Project Construction software (formerly Trns*port SiteManager Construction) provides a section to calculate and pay for these materials.

Due to recent errors in the Stockpiled Materials calculations in the AASHTOWare Project Construction software, clarification is provided at the following link: (pages 2-64 thru 2-66 and Appendix A)

<http://www.state.nj.us/transportation/business/trnsport/pdf/SMCGuide.pdf>

The guide (specifically Appendix A) explains the payment and ultimate reduction of payment of the Stockpiled Materials in the AASHTOWare Project Construction software.
