Subpart 155.03.01 Field Office of the 2007 Standard Specifications specifies that the Contractor provide all utility services and connections. This includes both land line(s) and cell phone(s).

Subpart 155.03.02 Field Office Maintenance of the 2007 Standard Specifications specifies that the Contractor maintain the field office including the utilities provided for in Subpart 155.03.01.

With the issuance of BDC11S-13 dated 02/14/12, the Item (155039M and 155042M) TELEPHONE SERVICE (former Subpart 155.03.03) of the 2007 Standard Specifications will no longer be provided on new Contracts. With this change, telephone service is considered part of Field Office Maintenance.

For Contracts that have incorporated this change, do not add the Item TELEPHONE SERVICE.
