

**CONTRACTOR'S CERTIFICATION OF COMPLIANCE
ITEMS CONTAINING STEEL & IRON**

For Compliance with the "Buy America" Provision
NJDOT Standard Specification 106.03 & 106.07 and 23 CFR 635.109 & 635.410

DP No.: _____ Federal Project No.: _____

Project Name: _____

Supplier/Manufacturer: _____

Contractor: _____

The above noted supplier/manufacturer has furnished the following materials for use by the Contractor in the construction of the above referenced project.

NJDOT Item No.	Product Description	Quantity*	Heat Number

* Include the units as well as the quantity. Only list actual quantities delivered to the job site.

Submit all required documentation with this form. See NJDOT Standard Specifications Section 106.07.02 for requirements for step certification.

Contractor's Statement of Certification

Domestic Iron and Steel - I hereby certify that all melting and manufacturing processes for the iron and steel components, including application of coating, occurred in the United States for the above listed materials and that those materials meet all other requirements as set forth in the Contract.

Non-Domestic Iron and Steel - I hereby certify that the above listed materials meet the requirements as set forth in the Contract with the exception that all or part of the manufacturing process for the iron and steel components may have occurred outside the United States. Therefore, the material is considered non-domestic. Attached is a detailed description of the non-domestic steel and iron components and the pre-approval from NJDOT Bureau of Materials for using this non-domestic material.

NO IRON/STEEL USED IN THIS PROJECT.
