I-80 eastbound daytime lane closures during the week needed for retaining wall repairs in Knowlton Expect possible congestion during the morning commute

(Trenton) – New Jersey Department of Transportation (NJDOT) officials today announced the continuation of daytime lane closure of the right lane on I-80 eastbound before the S-curve for retaining wall repairs in Knowlton.

From 9 a.m. until 3 p.m. Monday through Friday for the next two months, the right lane on I-80 eastbound will be closed just before the S-curve near mile post 1.4. One lane will remain open during construction. The work is necessary to repair an eroded section of the wall by pouring a new footing, repairing cracks in the wall and stabilizing the embankment area. The schedule of the work is subject to change due to weather or other factors.

Earlier this year, a section of damaged pipe under I-80 unrelated to the erosion was found and repaired. In addition, the entire drainage system was cleaned, and repairs were made to inlets and a drainage outfall.

Motorists are encouraged to check NJDOT's traffic information website www.511nj.org for real-time travel information and for NJDOT news follow us on Twitter [@NJDOT_info](https://twitter.com/NJDOT_info) or on the [NJDOT Facebook page](https://www.facebook.com/NJDOT).
