Browning Road Bridge to have alternating traffic overnight next week for utility relocation A single lane of traffic will be shifted to the old bridge

(Trenton) - New Jersey Department of Transportation (NJDOT) officials today announced overnight lane closures with alternating traffic on Browning Road next week for utility relocation as part of the Direct Connect project in Bellmawr, Camden County.

NJDOT's contractor, South State, Inc., is scheduled to close the temporary Browning Road Bridge Monday, November 15 through Friday, November 19 from 8 p.m. until 6 a.m. each night. A single lane of traffic will be shifted onto the original bridge with alternating traffic. The closure is necessary to allow PSE&G to install new wires on the temporary bridge.

The work is part of the Direct Connect project that will provide a seamless route for I-295 motorists traveling through the interchange of I-295, I-76, and Route 42. To sign up for I-295 Direct Connect project updates go to 295DirectConnect.com or text CONNECT to 1-844-844-3681.

Portable variable message signs are being utilized to provide advance notification to the public of all traffic pattern changes associated with the work. The precise timing of the work is subject to change due to weather or other factors.

Motorists are encouraged to check NJDOT's traffic information website www.511nj.org for real-time travel information, and for NJDOT news follow us on Twitter [@NewJerseyDOT](https://twitter.com/NewJerseyDOT) or on the [NJDOT Facebook page](#).
