New Jersey Transportation Trust Fund Authority
Notes to Financial Statements
June 30, 1998

1. DESCRIPTION OF THE AUTHORITY

New Jersey Transportation Trust Fund Authority (the "Authority") was created by the State of New Jersey ("the State") in 1984 pursuant to the New Jersey Transportation Trust Fund Authority Act of 1984, P.L. 1984, C. 73, as amended (the "Act") to provide a stable, predictable funding mechanism for transportation system improvements undertaken by the New Jersey Department of Transportation (the "Department"). Transportation system improvements financed by the Authority include expenditures for the planning, acquisition, design, construction, repair, maintenance and rehabilitation of public facilities for ground, water or air transportation of people or goods. The Authority also finances State aid to counties and municipalities for transportation system improvements. The Authority is governed by five members including the Commissioner of the New Jersey Department of Transportation (the "Commissioner") and the State Treasurer, who serve as ex officio members. The Authority has, from time to time, issued bonds for the purposes of paying a portion of the State's share of the costs of the transportation system improvements pursuant to the Authority's 1995 Transportation System Bond Resolution (The "Bond Resolution") adopted by the Authority on June 15, 1995, as supplemented. The Act provides, among other things, for (i) the funding of transportation system improvements through June 30, 2000, and (ii) the issuance of debt on and after August 29, 1995 in an aggregate principal amount of \$700,000,000 (the "Statutory Debt Issuance Limit"), except that if that permitted amount of debt, or any portion thereof is not incurred in a fiscal year, it may be incurred in a subsequent fiscal year. Under the Act, the Authority shall minimize debt incurrence by first relying on appropriations and other revenues available to the Authority before incurring debt to meet its statutory purposes.

Revenues

The Act provides that during the fiscal year 1996 and future fiscal years, the State Treasurer shall credit to the Authority's Transportation's Trust Fund Account, as set forth below, not less than (a) an amount equivalent to the revenue derived from \$0.025 per gallon from the tax imposed on the sale of motor fuels pursuant to Chapter 39 of Title 54 of the Revised Statutes (the "Motor Fuels Tax"), but not less than \$100,000,000 per year, plus (b) as a result of the approval by the voters of the State of an amendment to the constitution approved by the voters of the State at the general election on November 7, 1995, (i) an amount equivalent to the revenue derived from \$0.045 per gallon from the Motor Fuels Tax which shall not be less than \$180,000,000 during the fiscal year beginning July 1, 1996 and 1997, (ii) an amount equivalent to the revenue derived from \$0.055 per gallon from the Motor Fuels Tax which shall not be less than \$220,000,000 during the fiscal year beginning July 1, 1998 and (iii) an amount equivalent to the revenue derived from \$0.065 per gallon from the Motor Fuels Tax which shall not be less than \$260,000,000 for the fiscal year beginning July 1, 1999 and for each fiscal year thereafter, plus (c) \$24,500,000, which is equivalent to all amounts to be received by the State annually from the State's three toll roads authorities (New Jersey Turnpike Authority, the New Jersey Highway Authority, and the South Jersey Transportation Authority, as successor to the New Jersey Expressway Authority, pursuant to separate contracts with each toll road authority (the "Toll Road Authority Contracts")), plus (d) an amount equivalent to the sums of the revenues

due from the increase of fees from motor vehicle registrations collected pursuant to R.S. 39:320, as amended and from the increase in the tax on diesel fuels imposed pursuant to R.S. 54:39-27, as amended and by P.L. 1987, C. 460, but not less than \$30,000,000, plus (e) such additional amounts as are necessary to carry out the provisions of the Act; plus (f) after January 1, 1997, the Motor Vehicle registration fee collected pursuant to subsection a. of section 68 of P.L. 1990, c. 8 (R.S. 17B:33B-63). The Act further provides that, subject to appropriations being made from time to time by the legislature for the purposes of the Act, the State Treasurer shall pay to the Authority, no later than the fifth day of the month following the month in which a credit has been made, the amounts credited to the Transportation Trust Fund Account. Pursuant to the Act, the Authority and the State Treasurer entered into an Amended and Restated State Contract dated as of July 1, 1995, as amended (the "State Contract") which provides for the payment of these revenues to the Authority and implement the financing arrangements contemplated by the Act. For fiscal year 1997, the legislature did not appropriate \$30,000,000, as mentioned in (d) above. Therefore, the authority did not receive these revenues from the State Treasurer.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Authority is considered a component unit of the State of New Jersey and is included in the general purpose financial statements of the State.

The accounting policies of the Authority conform with generally accepted accounting principles as applicable to governmental units. The followings is a summary of significant policies:

Basis of Presentation – Fund Accounting

The accounts of the Authority are organized on the basis of funds and an account group, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. The various funds are summarized by type in the financial statements. The following fund types and account group are used by the authority.

Special Revenue Fund

To account for the proceeds of specific revenue sources that are legally reserved for specific purposes. Under the terms of the Bond Resolution dated June 15, 1995, the Authority maintains the following accounts:

- Transportation Improvement Fund – to account for the proceeds of specific revenue sources (motor fuel tax, toll road authority contracts and commercial vehicle fees and taxes) that are legally restricted to expenditure for specific purposes. The Transportation Improvement Account is also used to account for the accumulation of resources for payment of state transportation system costs.
- Authority Reserve – to account for the operating expenditures of the Authority.

Debt Service Fund

To account for the accumulation of resources for the payment of principal and interest on bonds as defined by the Bond Resolution.

General Long-Term Debt Account Group

Is used to establish accounting control and accountability for the Authority's general long-term debt. The General Long-Term Debt account group for all long-term debt of the Authority.

Basis of Accounting

The modified accrual basis of accounting is followed by the Authority. Under the modified accrual basis of accounting, revenues, including interest income, are recorded when susceptible to accrual (i.e., both measurable and available). Revenues are considered available if they are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the liability is incurred, if measurable. Principal and interest on general long-term debt are recorded as fund liabilities when due.

In applying the "susceptible to accrual" concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance.

Assessment to toll road authorities, other fees and taxes collected by the State of New Jersey are recorded in accordance with contractual requirements. Installments for assessments and other fees and taxes not yet remitted by the State of New Jersey are recorded as accounts receivable – State of New Jersey.

Investments

State of New Jersey Cash Management Fund Units are stated at fixed cost of \$1.00 Per unit, which represent market value.

Total (Memorandum Only)

Total (Memorandum Only) columns contain the totals of the similar accounts of the various funds and the General Long-Term Debt Account Group. Since the assets of the funds are restricted, the combination of the funds and account group, including assets therein, is for convenience only and does not indicate that the combined assets are available for expenditures in any manner other than that provided for in the bond resolution.

Comparative Data

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the Authority's financial position.

3. INVESTMENTS

Pursuant to the Bond Resolution, the Authority is authorized to invest its fund in: (a) direct obligations of or obligations guaranteed by the United States, (b) bonds or obligations of any state of the United States or of any agency, instrumentality or local governmental unit or any such state, (c) bonds, debentures or other evidence of indebtedness issued or guaranteed by any agency or corporation created pursuant to an Act of Congress, (d) new housing authority bonds, (e) certificates of deposit, (f) commercial paper, (g) repurchase agreements, and (h) State of New Jersey Cash Management Fund.

	<u>At Cost:</u>	<u>At Fair Market Value:</u>
State of New Jersey Cash Management Fund	<u>\$304,915,559</u>	<u>\$304,915,559</u>

The purchase, sale, receipt of income and other transaction affecting investments are governed by custodial agreements between the Authority through the State Treasurer and custodian banks as agents for the funds. State laws and policies set forth the requirements of such agreements and other particulars as to the size of custodial institution, amount of the portfolio to be covered by the agreements and other pertinent matters.

GASB Statement No. 3 requires disclosure of the level of investment risk assumed by the Authority at June 30, 1998. Category 1 includes investments that are insured or registered or for which the securities are held by the Authority or its agent in the Authority's name. The Bonds are special obligations of the Authority payable from and secured primarily by payments received by the Authority from the State of New Jersey (the "State") pursuant to the Act and pursuant to the State Contract. Payments to the Authority by the State are subject to and dependent upon appropriations being made from time to time by the State Legislature for such purpose.

During the year ended June 30, 1998, the following changes occurred in the General Long-Term Debt Account Group:

Prior Year Reclassification

In fiscal year 1997 in the balance sheet, under Account Group – General Long Term Debt, an asset account – amount to be provided for retirement of bonds was understated by \$16.5 million. Likewise, a liability account – Transportation System Bonds Payable was understated by \$16.5 million, due to an error in preparation of Bonds Schedule – Annual Debt Service Requirement Schedule. However, all the Fund Balances were unaffected. Both Balances of the Account Group - General Long Term Debt have been corrected for FY 1998.

The bonds are primarily secured by revenues received or to be received by the Authority from the State of New Jersey as described in Note 1.

Annual debt service requirements (principal and interest) to maturity for the transportation system bonds payable as of June 30, 1998 are as follows:
